Utpal Nath

Performance & QA Engineer | Load, Stress & Scalability Testing | Azure | CI/CD | APM

sriutpalnath270@gmail.com · +91 96326 38838 · Bengaluru, India · sritupal.github.io/Utpal_Portfolio

Profile

Performance and QA Engineer with 5 years of experience designing and executing performance testing (load, stress, and scalability) for customer-facing Web, API, and Mobile platforms. Defines non-functional requirements (NFRs) and performance targets, integrates testing into the development lifecycle using Azure DevOps CI/CD, and analyses performance data through Application Performance Monitoring (APM) with Azure Monitor and Application Insights to identify and resolve bottlenecks. Strong record of improving latency, throughput, and release velocity, and of communicating technical findings clearly to cross-functional stakeholders.

Experience

Quality Engineering Analyst (Associate), Cognizant Technology Solutions — Feb 2022 – Nov 2026

- Designed and executed 200+ performance test scenarios (load, stress, and scalability) using JMeter, LoadRunner, k6, and OpenText across 15+ enterprise Web, API, and Mobile Applications, reducing average response time from 4.2s to 2.7s (35% latency improvement).
- Ran high-scale load simulations with 10,000+ concurrent users to validate scaling behaviour, identifying 95% of performance bottlenecks pre-deployment and supporting 99.9% production uptime.
- Analysed performance data through APM using Azure Monitor, Application Insights, and Grafana/Datadog dashboards to pinpoint and resolve throughput and latency bottlenecks, surfacing insights used by engineering and management stakeholders.
- Defined non-functional requirements (NFRs) and performance targets for key customer journeys, embedding performance criteria into the development lifecycle.
- Integrated 50+ automated test suites into CI/CD pipelines using Azure DevOps and Jenkins, cutting deployment time from 4 hrs to 2 hrs (50%) and enabling 3x more frequent releases.
- Architected 8 Selenium automation frameworks covering 5,000+ test cases, reducing manual testing effort by 60% and release cycles from 10 days to 6 days.
- Implemented generative AI-powered test generation, creating 3,000+ test cases and raising coverage from 72% to 89% with a 45% improvement in defect detection.
- Mentored 8 junior engineers in JMeter scripting, automation framework development, and performance testing methodology, communicating technical findings to cross-functional teams.

Skills · Performance Testing, Apache JMeter, LoadRunner, BlazeMeter, Load, Stress, Scalability, Endurance testing, Web, API, Mobile performance testing, NFR definition and Performance target setting, Monitoring & APM, Azure Monitor, Application Insights, Datadog, Grafana, Splunk, InfluxDB, Dashboards, Bottleneck analysis, CI/CD & DevOps, Azure DevOps, Automation, Selenium WebDriver, Playwright, TestNG, pytest, API testing, AI & Analytics, Generative AI, LLMs, Python, SQL / PL-SQL, Cloud, Methodologies, Agile (Scrum), Shift-Left QA, Non-functional testing, InfuxDB

Quality Engineering Analyst — Trainee (Program Analyst Trainee), Cognizant Technology Solutions — Feb 2022 – 2022

- Participated in Agile sprint ceremonies, supporting test planning, test case review, and UAT coordination across 3 product releases.
- Scripted foundational JMeter load tests for web APIs, establishing the performance testing base for later enterprise-scale work.

Data Science & Data Analyst Intern, The Sparks Foundation — Jul 2020 – Sep 2020

- Applied data analysis and visualization techniques to derive actionable insights from structured datasets.
- Reinforced a data-driven quality mindset through Python-based analytics.

Projects

wheelz78, github.com/sritupal/wheelz78 — Jun 2026 – Jun 2026

- Created a working E-Commerce platform for car dealers

Skills · Node.js, MongoDB, React, Express

Education

Bachelor of Technology (B.Tech), Jain (Deemed-to-be University) — 2017 – 2021
Computer Science (Internet of Things)

Higher Secondary, Kendriya Vidyalaya — 2017 – 2017
Science / Computer Science

Certifications

Claude Certified Architect – Foundations, Anthropic Education — Jun 2026
Credential ID e8gh5tyn7fx7 · verify.skilljar.com/c/e8gh5tyn7fx7

Claude Code 101 (Certificate of Completion), Anthropic Education — May 2026
Credential ID yzevtvw454bu · verify.skilljar.com/c/yzevtvw454bu

Context Engineering Foundation, Credly — Apr 2026
Credential ID d05df31d-9caf-44c3-b3d4-f70a8c0b7455 · credly.com/badges/d05df31d-9caf-44c3-b3d4-f70a8c0b7455/linked_in_profile
